

LED Standard Panel Light

This high-performance LED panel is designed for general lighting applications. It provides uniform and energy-efficient illumination and is ideal for offices, schools, hospitals, and retail spaces.

Overview

High-Performance LED Panel

This high-performance LED panel is designed for general lighting applications, providing uniform and energy-efficient illumination. With its slim profile and easy installation, it is an ideal solution for offices, schools, hospitals, and retail spaces. The unit offers a long operational lifespan, reduced maintenance costs, and flicker-free light output for a comfortable environment.

Technical Specifications

Power Consumption

- 40
- 48
- 60
- 72

Lifespan

30000 hours

Rated Life

Operating Voltage	AC85-265V
-------------------	-----------

Power Factor (PF)	0.5
-------------------	-----

IP Rating	IP20
-----------	------

Optical Properties

Color Temperature Options	3000K, 4000K, 6500K
---------------------------	---------------------
