

LED Street Light Fixture

This LED street light is designed for efficient and reliable outdoor lighting. It features a streamlined, aerodynamic housing for optimal heat dissipation and wind resistance.

Overview

High-Efficiency Outdoor Lighting

This LED street light is engineered for reliable and efficient outdoor illumination in diverse environments. Featuring a streamlined, aerodynamic housing, the fixture ensures optimal heat dissipation and superior wind resistance for long-term durability. Its high-output LED array delivers bright, uniform lighting while maintaining low energy consumption, making it an ideal solution for streets, parking lots, and large area lighting applications.

Technical Features

Design & Construction

Aerodynamic Housing, Weather-Resistant, Heat Dissipation Design

Installation

Integrated mounting bracket for standard poles or walls

Applications

Suitable Applications

- Street Lighting
- Parking Lot Lighting
- General Area Lighting
