

LED Street Light with Die-Cast Aluminum Housing

This LED street light features a die-casting aluminum housing with a durable high-quality paint finish and PC lens. It provides efficient and comfortable lighting with a wide beam angle light distribution.

Overview

High-Performance LED Street Lighting

This professional-grade LED street light is engineered for durability and efficiency in diverse outdoor environments. Constructed with a die-cast aluminum housing and high-quality paint finish, it ensures long-term reliability and excellent thermal management. Its wide beam angle and optimized light distribution provide comfortable, uniform illumination for cities, plazas, and commercial roads.

Technical Specifications

IP Rating	65
IK Rating	08
CRI	70
Color Temperature	4000-6500K

Model Performance Table

Model Specifications

Model	Power (W)	Flux (lm)	Dimensions (mm)
SH-SL30ST	30	3000	302*130*66
SH-SL50ST	50	5000	396*170*88
SH-SL70ST	70	7000	396*170*88
SH-SL100ST	100	10000	460*220*88
SH-SL120ST	120	12000	460*220*88
SH-SL175ST	175	17500	520*250*88

Features

Key Advantages

High luminous efficacy, Superior cooling system, Easy on-site maintenance, Die-cast aluminum housing, Wide beam distribution
