

LED T-Shape Light Bulb

This LED T-shape bulb is designed for efficient and long-lasting illumination. Its standard screw base ensures compatibility with a wide range of fixtures, making it ideal for industrial and commercial lighting applications.

Product Overview

High-Performance LED T-Shape Illumination

This high-performance LED T bulb is engineered for efficient and long-lasting illumination in demanding environments. Featuring a robust construction with a specialized white diffuser, it ensures uniform light distribution across your space. The design includes an integrated heat sink for optimal thermal management, making it an ideal choice for various industrial and commercial lighting applications.

Technical Features

Application Suitability

- Industrial Lighting
- Commercial Lighting
- General Illumination

Key Design Features

T-Shape Design, White Diffuser, Integrated Heat Sink, Standard Screw Base
