

# LED Tower Flood Light

This LED tower flood light features a 6063 aluminum shell for durability. It offers universal voltage compatibility from 90 to 305Vac and an average life of 50,000 hours.

## ADDITIONAL IMAGES

## Overview

### High-Performance Industrial Flood Lighting

This tower flood light is engineered for durability and high-intensity illumination, featuring a robust 6063 aluminum shell designed for superior thermal management. With a versatile power range from 60W to 600W and multiple voltage input options, it is suitable for diverse industrial environments. The fixture utilizes advanced LED technology to deliver high output efficiency up to 160Lm/W, ensuring long-lasting performance and consistent brightness.

## Performance Metrics

### Luminous Efficacy

**160 Lm/W**

Output Efficiency

**50000 hours**

Average Lifespan

## Technical Specifications

### Available Beam Angles

- 40°
- 60°
- 90°
- 60° x 40° (Special Tower Light Lens)

### Power Options

60W - 600W

### Input Voltage

AC100-277V, DC24V, DC48V

## Construction & Durability

Ingress Protection  
IP66

Housing Material

6063 Aluminum

Lens Options

Anti-UV Glare-free PC Lens (Optional)
