

LED Tube Light

This LED tube light is designed as an energy-efficient replacement for traditional fluorescent tubes. It is suitable for various lighting applications including residential, commercial, and industrial spaces.

Overview

Energy-Efficient Lighting Solution

This LED tube light is designed as a high-performance, energy-efficient replacement for traditional fluorescent tubes. Featuring a durable white cylindrical body with standard metallic pins, it ensures reliable electrical connectivity for a wide range of applications. Ideal for residential, commercial, and industrial environments, this lighting solution offers superior longevity, instant-on capabilities, and significantly reduced energy consumption.

Technical Specifications

Suitable Environments

- Residential
- Commercial
- Industrial

Key Features

Energy Efficient, Instant-On, Long Lifespan, Replacement for Fluorescent

Physical Characteristics

Design

White cylindrical body with metallic pins
