

LED Tube Light

This LED tube light offers a cost-effective and energy-efficient lighting solution. It is suitable for residential, commercial, and industrial use, providing bright and uniform illumination.

Product Overview

Solar-Powered Illumination Solution

The Solar Tube Lamp provides a reliable, automated lighting solution perfect for outdoor environments. Featuring a dual-tube design with a smart controller, it operates automatically at night by sensing ambient brightness. Its robust, rainproof construction ensures consistent performance in varying weather conditions.

Technical Specifications

LED Count

20 pcs

LEDs per tube

Light Source	Super Bright Red LED
Flashing Mode	Interflashing
System Configuration	One controller with two tubes

Features

Key Features	Solar-Powered, Rainproof, Automated Night Operation, Easy Installation
Mounting	Includes specialized fixed sheet metal for easy installation
