

LED Tube Protective Sleeve

This LED tube protective sleeve provides a transparent cover for LED tubes. It is easily installed by fixing it to the lamp socket.

Product Overview

Transparent Protective Sleeves for LED Tubes

These transparent polycarbonate protective sleeves provide a durable and reliable covering for various LED tube types, including T5, T8, and T12 models. Designed for easy installation, the sleeves secure directly onto the lamp socket, offering enhanced protection and a clean aesthetic. This solution is suitable for both 600mm and 1200mm lamp lengths, ensuring compatibility with standard lighting fixtures.

Technical Specifications

Material	Transparent Polycarbonate (PC)
Installation Method	Fixed to lamp-socket
