

LED Tunnel Light

High-performance LED tunnel lights are designed for optimal illumination. The lights feature robust construction with aluminum housing and IP65 protection.

Product Overview

High-Performance Tunnel Illumination

These high-performance LED tunnel lights are engineered for optimal visibility and safety in demanding tunnel environments. Built with a robust aluminum housing, they offer superior durability and are rated for IP65 protection against harsh conditions. Designed for energy efficiency and longevity, these lights provide a reliable lighting solution with a lifespan exceeding 30,000 hours.

Technical Specifications

Lifespan

30000 Hours

Rated Lifespan

Operating Voltage	AC85-265V
Color Temperature	3000K - 6500K
Power Rating	250 W

Construction & Durability

Ingress Protection

IP65

Housing Material	Aluminum
