

LED Vapor Tight Light Fixture

This LED vapor tight light fixture is designed for 200-240V AC, 50/60Hz. It features a durable housing, energy-efficient LED light source, and a sealed design.

Product Overview

Robust Vapor Tight Solution

This LED vapor tight light fixture is engineered for demanding environments where moisture, dust, and corrosive elements are present. Featuring a durable, sealed housing and an energy-efficient LED light source, it provides reliable illumination in challenging spaces. It is an ideal lighting solution for industrial and commercial applications such as car washes, parking garages, and food processing plants.

Key Features

Protection Features

Vapor Tight • Moisture Resistant • Dust Proof • Corrosion Resistant

Ideal Applications

Car Washes, Parking Garages, Food Processing Plants, Industrial Facilities, Commercial Environments
