

# LED Vapor Tight Light Fixture

This LED vapor tight light fixture is designed for demanding environments. It features a durable housing and sealed design to protect internal components, providing energy-efficient and long-lasting illumination.

## Product Overview

### Industrial-Grade Illumination

This LED vapor tight light fixture is engineered specifically for demanding environments where exposure to moisture, dust, and corrosive elements is a concern. Its rugged, sealed housing ensures the internal components remain protected, maintaining reliable performance over time. It provides an energy-efficient and long-lasting lighting solution, making it an ideal choice for parking garages, warehouses, and food processing facilities.

## Key Features

### Protection Features

Vapor Tight • Dust Resistant • Moisture Resistant • Corrosion Resistant

### Typical Applications

Parking Garages, Warehouses, Food Processing Plants, Industrial Facilities
