

# LED Vapor Tight Light Fixture

This LED vapor tight light fixture is designed for demanding environments. Its sealed enclosure protects against moisture, dust, and corrosion.

## Product Overview

### Durable Industrial Lighting

The LED Vapor Tight Light Fixture is engineered for demanding environments where moisture and dust ingress protection is critical. Its sealed enclosure ensures reliable performance in locations such as parking garages, food processing plants, and industrial facilities. This high-output LED solution provides uniform, bright illumination while significantly reducing energy consumption and maintenance requirements.

## Key Features

### Protection & Durability

Vapor Tight • Moisture Resistant • Dust Resistant • Corrosion Resistant

### Suitable Environments

Car Washes, Industrial Facilities, Parking Garages, Food Processing Plants

## Technical Specifications

### Performance Benefits

- Energy efficient operation
- Uniform light distribution
- Reduced maintenance costs
- Robust construction

### Light Source

High-output LED
