

LED Vapor Tight Light Fixture

The LED Vapor Tight Light Fixture is a durable and energy-efficient lighting solution ideal for demanding environments. Its robust construction provides superior protection against moisture, dust, corrosion, and impact, ensuring reliable performance and reduced maintenance costs.

Product Overview

Durable Industrial Lighting Solution

The LED Vapor Tight Light Fixture is a robust and energy-efficient lighting solution engineered for demanding environments. Featuring a sealed gasket and polycarbonate housing, it offers superior protection against moisture, dust, corrosion, and impact. This fixture delivers bright, uniform illumination suitable for industrial facilities, parking garages, and food processing plants, ensuring long-term reliability and reduced maintenance.

Key Features

Ideal Applications

- Industrial Facilities
- Parking Garages
- Car Washes
- Food Processing Plants
- Indoor & Outdoor Environments

Protection & Durability

Vapor Tight, Moisture Resistant, Dust Resistant, Corrosion Resistant, Impact Resistant

Technical Specifications

Lighting Technology

High-Output LED • Energy Efficient
