

# LED Vapor Tight Light Fixture

This LED vapor tight light fixture is designed for use in damp and wet locations. The durable, sealed enclosure protects the LED components from moisture, dust, and corrosion.

## Product Overview

### Durable Lighting for Demanding Environments

The LED Vapor Tight Light Fixture is engineered specifically for damp and wet locations where protection against moisture, dust, and corrosion is critical. Featuring a robust, sealed enclosure, this fixture ensures long-lasting performance and reliability in challenging settings such as parking garages, warehouses, and food processing facilities. Its energy-efficient design provides consistent illumination while the secure mounting bracket and simplified connector system allow for straightforward, professional installation.

## Key Features

### Protection & Build

Vapor Tight • Dust Resistant • Moisture Resistant • Corrosion Resistant • Sealed Enclosure

### Ideal Applications

Parking Garages, Warehouses, Food Processing Facilities, Damp Locations, Wet Locations

## Installation & Design

### Installation Highlights

- Robust housing for durability
- Secure mounting bracket included
- Easy wiring connector system
