

LED Vapor Tight Light Fixture

The LED Vapor Tight Light Fixture is a durable and energy-efficient lighting solution for demanding environments. Its sealed enclosure protects against moisture, dust, and corrosion, making it suitable for parking garages, warehouses, and food processing plants.

Product Overview

Durable Lighting for Demanding Environments

This LED Vapor Tight Light Fixture is engineered for high-performance lighting in challenging industrial and commercial spaces. Featuring a fully sealed enclosure, it offers superior protection against moisture, dust, and corrosive elements, ensuring longevity and reliability. Its robust construction provides bright, uniform illumination while significantly reducing energy consumption and maintenance requirements.

Key Features

Protection Capabilities

Moisture Resistant, Dust Proof, Corrosion Resistant, Vapor Tight

Applications

Ideal Environments

- Parking Garages
- Warehouses
- Food Processing Plants
- Car Washes

Performance

Operational Benefits

Energy Efficient • Long Lifespan • Low Maintenance • Uniform Illumination

Installation

Installation and Maintenance

Designed with a streamlined form factor to facilitate quick and easy installation, as well as simplified cleaning procedures to maintain optimal light output over time.
