

LED Vapor Tight Light Fixture

This LED vapor tight light fixture is designed for use in wet, damp, and dusty environments. Its durable polycarbonate housing and lens provide excellent protection, while its energy-efficient design ensures significant savings compared to traditional lighting.

Product Overview

High-Performance Vapor Tight Lighting

This LED vapor tight light fixture is engineered for reliability in wet, damp, and dusty environments. Featuring a durable polycarbonate housing and lens, it offers robust protection against harsh elements while delivering bright, uniform illumination. Designed for energy efficiency, it provides a cost-effective lighting solution that reduces maintenance needs and operational costs in demanding industrial settings.

Key Features

Durability & Design

- Vapor-tight construction
- Durable polycarbonate housing
- Impact-resistant lens
- Designed for wet and dusty environments

Ideal Applications

Parking Garages, Car Washes, Food Processing Plants, Industrial Facilities

Performance

Operational Benefits

Energy Efficient • Long Lifespan • Low Maintenance • Uniform Illumination
