

# LED Vapor Tight Light Fixture

This LED vapor tight light fixture is designed for use in damp or wet locations. It features a durable, corrosion-resistant housing and a polycarbonate lens.

## Product Overview

### Industrial Vapor Tight Lighting

This LED vapor tight light fixture is engineered specifically for challenging environments, including damp or wet locations. Featuring a durable, corrosion-resistant housing and a high-quality polycarbonate lens, it delivers reliable, long-lasting illumination for spaces like parking garages and warehouses. Its energy-efficient design provides a superior alternative to traditional fluorescent lighting, significantly reducing maintenance costs and energy consumption.

## Key Features

### Design Advantages

- Corrosion-resistant housing
- Durable polycarbonate lens
- Bright and even light distribution
- Easy installation process
- Energy-efficient LED source

### Ideal Applications

Parking Garages, Warehouses, Industrial Facilities, Damp Locations, Wet Locations

## Performance

### Maintenance

Low Maintenance • Long Lifespan
