

Leno Weave Tarpaulin Roll

This tarpaulin roll features a leno weave for enhanced tear resistance and stability. It is ideal for construction, agriculture, and transportation applications, providing excellent weather and UV protection.

Product Overview

High-Performance Leno Weave Tarpaulin

This Leno Weave Tarpaulin Roll is engineered for superior tear resistance and structural stability, making it an ideal choice for demanding applications in construction, agriculture, and transport. Constructed from high-density polyethylene (HDPE) yarn with a low-density polyethylene (LDPE) coating, it offers excellent weather resistance and UV protection. Its lightweight design ensures ease of handling for temporary shelters, ground covers, and protective barrier needs.

Technical Specifications

Weight Range

60 GSM

Minimum Weight

250 GSM

Maximum Weight

Material Composition	HDPE (Yarn), LDPE (Coating)
Weaving Density	3x3
Lamination	Yes

Logistics & Options

Available Roll Sizes

- 1x50m
- 1x100m
- 1.5x50m
- 2x50m
- 2x100m

Color Customization	Available as per customer request
Packaging	Roll packing with size sticker
