

# Lever Hoist

This lever hoist is a robust and reliable lifting device designed for various industrial and construction applications. It utilizes a lever mechanism to provide precise and controlled lifting and lowering of heavy loads.

## Overview

### HSH-A Series Lever Hoist

The HSH-A Series Lever Hoist is a high-efficiency manual lifting tool engineered for heavy-duty construction and industrial applications. Designed for versatility, this hoist excels at pulling, lifting, dragging, and stretching tasks, making it particularly effective for overhead work or operations in confined spaces. Built from high-quality steel, it combines a compact, lightweight design with advanced mechanical structure to ensure reliable performance and ease of maintenance.

## Key Features

### Performance Highlights

**1 Reliable**

Operation

**1 High**

Efficiency

**1 Low**

Pulling Force

### Design Benefits

- Compact volume for portability
- Lightweight construction
- Advanced structural design
- Attractive appearance
- Easy maintenance

## Technical Specifications

### Material Composition

High Quality Steel • Heavy-Duty Hooks • Durable Chain

### Suitable Applications

Construction, Industrial, Workshops, Maintenance, Overhead Lifting, Confined Spaces
