

Leverage Garden Shear for Hedges and Shrubs

This garden shear features precision-ground blades for clean and efficient cuts. It has a robust lever mechanism for increased cutting power and ergonomic handles for comfortable use.

Overview

Professional Garden Shear

This heavy-duty garden shear is engineered for precision and efficiency in landscaping tasks. Featuring a specialized lever mechanism, it provides increased cutting power for trimming hedges, shrubs, and branches. Designed with ergonomic handles, it ensures comfortable and sustained use for professional gardening applications.

Technical Specifications

Blade Characteristics

- Precision-ground blades
- Heavy-duty construction
- Clean and efficient cutting action

Adjustment Settings

Tighten • Loose

Model Identifiers

AH03, JB133EB

Performance

Key Performance Features

- Lever mechanism for increased power
- Ergonomic handle design
- Suitable for hedges and shrubs
