

Levitating Fern Bonsai with Geometric Planter

This levitating bonsai features a delicate fern suspended above a wooden base. The geometric white planter and rounded base design add a modern touch.

Product Overview

Innovative Levitation Technology

This levitating fern bonsai combines nature with cutting-edge magnetic technology to create a stunning, suspended display. The geometric planter floats gracefully 20mm above an imitation wood grain base, offering a unique decorative centerpiece for modern office or home environments. Designed for stability and aesthetic appeal, this product seamlessly integrates electronic levitation with botanical beauty.
