Overview

Professional Li-ion Charging Solution

This S120 model is a high-performance 126W lithium-ion battery charger designed for demanding B2B applications. It features a robust aluminium alloy housing and wide input compatibility, making it an ideal power solution for e-bikes, scooters, and small electric utility vehicles. With integrated safety protocols and CE certification, it offers a reliable, fast-charging experience for 10S lithium battery packs.

Technical Specifications

Output Specs

42 V Output Voltage	3 A Output Current
-------------------------------	------------------------------

Output Power	126 W
Input Voltage Range	110-132VAC / 200-264VAC
Battery Compatibility	10S Li-ion

Physical Attributes

Dimensions	137 x 90 x 51 mm
Net Weight	0.8 KG
Housing Material	Aluminium Alloy

Compliance and Usage

Typical Applications

- Electric Bikes
- Electric Motorcycles
- Scooters
- Golf Carts
- Cleaning Equipment

Certifications

CE

Warranty Period

12 Months
