Overview

High-Performance Li-ion Charger

The C1200 series battery charger is engineered for reliable and efficient power delivery to lithium-ion battery packs. With a robust aluminium alloy shell and versatile input voltage compatibility, it is designed for demanding environments. This unit is an ideal solution for electric bikes, scooters, motorcycles, and other specialized electric equipment requiring consistent charging performance.

Technical Specifications

Output Voltage & Current

29.4 V

Output Voltage

30 A

Output Current

Output Power	882 W
Input Voltage Range	110-132VAC, 200-264VAC
Battery Configuration	7S

Physical Characteristics

Dimensions	264 x 120 x 89 mm
Net Weight	2.1 kg
Shell Material	Aluminium Alloy

Compliance & Support

Certifications

CE

Warranty

12 Months

Applications

Compatible Applications

- Electric Bike
- Motorcycle
- Scooter
- Cleaning Equipment
- Golf Cart
- General Electric Vehicles
