

Light-Duty Cargo Tricycle

This light-duty tricycle truck is designed for transporting goods. It features a single front wheel for maneuverability and a rear cargo bed.

Product Overview

Light-Duty Cargo Tricycle

The LD200ZH is a compact, maneuverable cargo tricycle specifically engineered for efficient short-haul goods transportation. Featuring a robust rear cargo bed and an enclosed driver cabin, this vehicle is perfectly suited for navigating narrow urban streets. Its durable suspension and ergonomic design provide a reliable solution for logistics and delivery tasks requiring moderate load capacity.
