

Light-Duty Cargo Truck for Urban Transport

The light-duty cargo truck is designed for urban and regional transportation. It features a box-type cargo container, a crew cab configuration, and a robust chassis.

Overview

Designed for Urban Efficiency

The 270Y Series is a light-duty cargo truck engineered specifically for the demands of urban and regional transportation. Featuring a versatile box-type cargo container and a comfortable crew cab configuration, this vehicle balances payload capacity with maneuverability. It provides a robust chassis and reliable performance, making it an ideal solution for logistics, delivery services, and general freight transport needs.
