

Light-Duty Cargo Truck

This light-duty cargo truck is designed for urban and commercial transportation. It features a compact design with a spacious cargo area, making it suitable for various delivery and logistics applications.

ADDITIONAL IMAGES

Product Overview

A versatile light-duty truck designed for modern urban logistics.

Designed for Efficiency and Reliability

This light-duty cargo truck is engineered for efficiency, reliability, and driver comfort in urban and regional logistics. Featuring an upgraded chassis and a refined engine, it offers a larger wheelbase for increased payload capacity compared to standard models. With a focus on safety and ergonomics, the cabin design incorporates passenger-car standards to ensure a more relaxed and productive driving experience.

Performance & Engineering

The robust 493 series engine, optimized for fuel efficiency and durability.

Compact cab-over design ensures excellent maneuverability in tight urban spaces.

Engine Series	493 Series
Wheelbase	2800 mm
Emission Standards	Euro II, Euro III

Safety & Features

Driver-focused cabin design with ergonomic controls and storage.

Safety Systems

ABS Standard • Optional Air Brakes

Convenience Features

- Cruise Control (Luxury Version)
- Ergonomic Dashboard Layout
- Integrated Climate Control
- Power Steering
