

Light-Duty Flatbed Truck

This is a light-duty flatbed truck designed for transporting cargo. It features a single cab and a functional design suitable for urban or rural environments.

Product Overview

Compact Performance

This light-duty flatbed truck is engineered for versatile transport needs in both urban and rural environments. Featuring a functional single-cab design, it offers a reliable solution for small-scale logistics and hauling tasks. The compact body allows for excellent maneuverability while maintaining the durability required for daily professional operations.
