

Light Duty G-Clamp with Threaded Spindle

This light-duty G-clamp is designed for a variety of clamping applications. It features a sturdy frame and a threaded spindle with a T-handle for easy tightening and secure holding.

Product Overview

Light Duty G-Clamp Overview

This light-duty G-clamp is engineered for versatility in various clamping applications, making it an essential tool for woodworking, metalworking, and general-purpose tasks. It features a robust, malleable cast iron body that provides reliable durability for moderate clamping force requirements. The assembly includes a threaded carbon steel spindle with a zinc-plated finish, ensuring smooth operation and resistance to corrosion during daily use.

Technical Specifications

Material Composition

- Body: Malleable cast iron
- Screw/Spindle: Carbon steel
- Finish: Powder coated body
- Finish: Zinc plated spindle

Suitable Applications

Woodworking, Metalworking, General Purpose

Design Features

Duty Rating

Light Duty

Mechanism

Threaded spindle with T-handle
