

# Light Truck Radial Tire 225/80R17.5

This light truck radial tire is designed for durability and performance. It features a robust tread pattern for excellent traction on both dry and wet surfaces.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Light Truck Radial Tire

This 225/80R17.5 Light Truck Radial tire is engineered for durability and reliability in commercial applications. Featuring a mixed tread pattern with four longitudinal grooves, it provides excellent handling and stability across varying road conditions. The robust construction includes high-strength steel wire for superior bearing performance, while the variable pitch design effectively minimizes resonance noise.

## Technical Specifications

### Construction

- All Steel Radial
- Sidewall: 1 Steel Ply
- Tread: 3 Steel Plies
- Tubeless
- regroovable

Tire Size	225/80R17.5
Load Index / Speed Rating	129/127L
Ply Rating	16 PR

## Performance Metrics

### Load Capacity

**1850 kg**

Max Load Single

**4070 lbs**

Max Load Single

**760 kPa**

Max Pressure

**110 psi**

Max Pressure

## Compatibility & Standards

Standard Rim Size	6.75
Certifications	CCC, E4, DOT

## Design Features

### Key Features

Low Heat Generation • Variable Pitch Noise Reduction • Water Evacuation Grooves • Reinforced Sidewall
