

Lighting Reflector

Lighting reflectors are used in illumination systems to direct and focus light. They come in assorted shapes, sizes, and colors, including amber, white, and red.

Overview

Professional Lighting Reflectors

These high-quality lighting reflectors are designed to provide versatile illumination control for professional environments. The collection includes a wide range of shapes, sizes, and colors, including amber, white, and red variants to suit specific lighting requirements. Engineered for reliability, these components serve as essential upgrades or replacements for existing lighting equipment systems.

Technical Specifications

Model Identifiers

- FF-FR001
- FF-FR002W
- FF-FR002Y
- FF-FR003
- FF-FR004
- FF-FR005F
- FF-FR005R

Primary Application

Illumination Systems • Lighting Equipment

Reflector Colors

Amber, White, Red
