

Liquid and Gas Flow Meter

This meter is designed for measuring the flow of both liquids and gases. It provides accurate readings for various industrial applications.

Product Overview

High-Performance Pressure Washer Hose

This high-pressure washer hose is engineered for demanding cleaning tasks, offering a robust construction that ensures reliable performance. Designed to withstand significant pressure while resisting kinking, it maintains a consistent water flow during operation. The hose includes integrated fittings for seamless connection to standard pressure washers and spray guns, making it a versatile tool for professional cleaning environments.

Construction & Durability

Key Features

Reinforced Material, Abrasion Resistant, Kink Resistant, High-Pressure Rated

Compatibility

Suitable For

- Pressure Washers
- Spray Guns
- General Cleaning Tasks
