

Liquid and Gas Flow Meter

This meter accurately measures the flow of both liquids and gases. It is suitable for residential and commercial applications.

Product Overview

Precision Flow Measurement

This versatile flow meter is engineered for accurate measurement of both liquid and gas flow rates across residential and commercial pipelines. Featuring durable construction with options in brass and polymer, these meters are designed for long-term reliability and easy integration. The unit includes clear digital or analog display options, ensuring precise monitoring for diverse industrial and utility applications.

Technical Specifications

Suitable Applications

Residential • Commercial • Liquid Flow • Gas Flow

Display Types

- Digital Display
- Analog Display

Housing Materials

Brass, Polymer

Installation Method

Threaded pipeline connection
