

Liquid and Gas Meter

This meter is designed for measuring the flow of both liquids and gases. It provides accurate readings for a variety of industrial applications.

Product Overview

Precision Liquid and Gas Measurement

This high-performance meter is engineered for accurate monitoring and control of liquid and gas flow in industrial applications. Designed with reliability in mind, it ensures consistent performance and durability under varying operational conditions. It is an essential component for systems requiring precise fluid management and process optimization.

Compatibility

Compatible Vehicle Models

- Hyundai Verna (1992-1995)
- Hyundai Verna (1996)
- Hyundai Porter (1996)

Part Configuration Reference

Vehicle Model	Available Parts
Hyundai Verna '92-'95	Head Light (L/R), Signal Light (L/R), Rear Lamp (L/R), Front Bumper
Hyundai Verna '96	Head Light (L/R), Signal Light (L/R), Rear Lamp (L/R), Front Bumper
Hyundai Porter '96	Signal Light (L/R)

Available Components

Head Lights, Signal Lights, Rear Lamps, Front Bumpers
