

# Liquor Bottle Mould with Dragon and Phoenix Design

Precision-engineered for creating liquor bottles or similar containers, this mould features intricate dragon and phoenix detailing. Its two-part design allows for easy removal of the formed product, ensuring accurate dimensions and a high-quality finish.

## Product Overview

### Premium Dragon and Phoenix Liquor Bottle Mould

This precision-engineered mould is specifically designed for the high-volume production of decorative liquor bottles. Featuring intricate dragon and phoenix detailing, it allows for the creation of culturally significant and aesthetically refined glass containers. The robust two-part construction ensures consistent dimensional accuracy and facilitates efficient demoulding for industrial manufacturing environments.

## Technical Specifications

### Visible Inscriptions

- (Ancient)
- (Well)
- (State/Country)
- (Boundary/World)

### Design Features

Dragon and Phoenix Motif, Two-Part Split Design, Detailed Base, High-Precision Finish

### Material Grade

High-grade industrial metal

### Primary Application

Glass forming for decorative liquor containers
