Overview

High-Efficiency Charging Solution

This versatile 300W battery charger is engineered for reliable performance in demanding environments. Featuring a durable aluminum alloy housing and efficient thermal management, it provides stable power output for electric mobility and industrial applications. Designed for safety and ease of use, it includes clear visual status indicators and universal socket compatibility.

Technical Specifications

Output Performance

14.6 V
Voltage

15 A
Current

300 W
Power

Input Voltage Range

90-264VAC

Physical Attributes

Dimensions	135 x 90 x 50 mm
Net Weight	0.9 kg
Casing Material	Aluminium Alloy

Compatibility & Usage

Suitable Applications	Electric Motorcycle, Scooter, Clean Machine, E-bike
Warranty	12 Months
Socket Compatibility	Customizable to destination country
