## Product Overview

### High-Efficiency Lithium Battery Charger

This C300 model is a robust and efficient battery charger specifically engineered for lithium battery systems. Housed in a durable aluminium alloy casing, it provides stable power output with integrated thermal management via cooling vents. The unit features intuitive LED status indicators, making it a reliable solution for electric mobility and professional equipment applications.

## Technical Specifications

|                     |                         |
|---------------------|-------------------------|
| Output Power        | 300 W                   |
| Output Voltage      | 58.4 V                  |
| Output Current      | 5 A                     |
| Input Voltage Range | 110-132VAC / 200-264VAC |

## Physical Attributes

|                 |                  |
|-----------------|------------------|
| Dimensions      | 135 x 90 x 50 mm |
| Net Weight      | 0.9 kg           |
| Casing Material | Aluminium Alloy  |

## Compatibility & Standards

### Available Socket Standards

- EU
- AU
- UK
- US

### Certifications

CE • RoHs

### Compatible Applications

Electric Motorcycle, Scooter, Clean Machine, E-bike

## Operational Details

### LED Status Indicators

| Status        | LED Color |
|---------------|-----------|
| Charging      | Red       |
| Fully Charged | Green     |

### Warranty

12 Months
