

Lithium Battery LED Headlamp

This headlamp features a powerful LED for bright illumination and is powered by a lithium battery for extended runtime. Its adjustable head strap ensures a comfortable and secure fit, while the durable construction withstands demanding environments.

Product Overview

High-Performance LED Headlamp

This lithium battery-powered LED headlamp is designed for reliable, hands-free illumination in demanding environments. Its compact and lightweight construction ensures portability, while the integrated lithium battery provides extended runtime for professional tasks, camping, and hiking. The adjustable design guarantees a secure and comfortable fit for various head sizes.
