Product Overview

Efficient Material Handling Solution

This lithium-powered electric pallet truck is designed for demanding industrial environments, offering a compact and durable solution for material handling. Equipped with a maintenance-free brushless motor and an intelligent control handle, it ensures precise, ergonomic operation and high productivity. The advanced lithium battery system supports rapid charging and hassle-free maintenance, making it an ideal choice for warehouses and distribution centers looking to optimize logistics.

Performance & Power

Key Performance Metrics

1500 kg

Load Capacity (Min)

2000 kg

Load Capacity (Max)

Motor Technology

Brushless

Gradability

High-gradability performance

Battery & Charging

Battery System

Lithium-ion, 6s battery replacement, Rapid charging

Safety & Control

Safety Features

- Emergency stop button
- Overload protection
- Battery safety management

Control Interface

Intelligent Control Handle

Design & Build

Design Attributes

Compact • Durable • Ergonomic • Maintenance-free
