Product Overview

High-Performance Lithium-Ion Charger

This 12.6V 20A charger is engineered for reliable, efficient charging of 3S Lithium-ion battery packs. Housed in a durable aluminium alloy shell, it is designed to withstand the demands of various electric mobility and industrial applications. The unit supports flexible plug configurations to ensure compatibility with your specific equipment requirements.

Technical Specifications

Key Output Metrics

12.6 V

Output Voltage

20 A

Output Current

252 W

Output Power

Input Voltage Range

- 110-132VAC
- 200-264VAC

Battery Compatibility

3S Li-ion

Physical Characteristics

Dimensions

173 x 90 x 51 mm

Net Weight

1.1 KG

Shell Material

Aluminium Alloy

Compliance & Support

Certifications

CE

Warranty

12 Months

Applications

Suitable For

Electric Bike, Motorcycle, Scooter, Cleaner, Golf Cart
