Overview

High-Efficiency Battery Charger

This C600B battery charger is engineered to provide reliable and efficient power delivery for lithium-ion battery systems. Housed in a durable aluminium alloy casing, it features active cooling for thermal management and clear LED status indicators for real-time monitoring. Designed for versatility, this unit supports a wide input voltage range, making it a robust solution for electric mobility applications.

Electrical Specifications

Status Indicators

- Red: Charging
- Green: Fully Charged

Input Voltage	200-264VAC
Output Power	500 W
Output Voltage	29.2 V
Output Current	18 A

Physical & Compatibility

Typical Applications

Electric Motorcycle • Scooter • E-bike

Dimensions	173 x 90 x 63 mm
Net Weight	1.35 kg
Casing Material	Aluminium Alloy
Compatible Battery Types	Li-ion, LiFePO4, Lead Acid

Compliance & Warranty

Warranty Period	12 months
Certifications	CE
