Overview

High-Performance Charging Solution

This 600W battery charger is engineered for reliable and efficient power delivery to lithium-ion battery packs. Featuring a robust aluminium alloy construction, it is designed for durability in various applications, including electric motorcycles, scooters, and e-bikes. With intelligent LED status indicators and universal socket compatibility, it offers a secure and user-friendly charging experience.

Performance Metrics

Key Specifications

600 W

Output Power

18 A

Output Current

29.2 V

Output Voltage

Technical Details

LED Status Indicators

- Red: Charging
- Green: Fully Charged

Input Voltage Range

110-132VAC / 200-264VAC

Compatible Battery Types

Li-ion, LiFePO4, Lead Acid

Physical Characteristics

Dimensions & Weight

Attribute	Value
Dimensions	135 x 90 x 50 mm
Net Weight	1.35 kg
Material	Aluminium Alloy

Compliance & Support

Certifications

CE

Warranty

12 Months

Applications

Common Applications

Electric Motorcycle, Scooter, E-bike
