Product Overview

Professional Battery Charging Solution

The S120 charger is engineered for high-performance lithium-ion battery applications including e-bikes, scooters, and industrial cleaning equipment. Featuring a robust aluminum alloy shell, this charger provides a reliable 12.6V output with 5A of current. It is designed for global compatibility with an adaptable input voltage range and is fully CE certified to ensure consistent safety and reliability for your equipment.

Technical Specifications

Output Performance

12.6 V

Output Voltage

5 A

Output Current

63 W

Output Power

Battery Configuration

3S

Input Voltage Range

110-132VAC / 200-264VAC

Physical Attributes

Physical Dimensions

137 x 90 x 51 mm

Net Weight

0.8 KG

Enclosure Material

Aluminium Alloy

Compliance and Reliability

Certifications

CE

Warranty Period

12 Months

Applications

Common Applications

- Electric Bikes
- Electric Motorcycles
- Electric Scooters
- Cleaning Equipment
- Golf Carts
