

Lithium-Ion Polymer Battery 7.4V 900mAh with PCB

This lithium-ion polymer (LiPo) battery has a nominal voltage of 7.4V and a capacity of 900mAh. It includes a protection circuit board (PCB) to prevent overcharging and short circuits, ensuring safe operation.

Product Overview

High-Performance LiPo Battery

This high-performance lithium-ion polymer (LiPo) battery is designed to provide a reliable power source for various electronic applications. With a nominal voltage of 7.4V and a capacity of 900mAh, it is well-suited for devices such as drones, remote control toys, and other portable electronics. The unit comes equipped with an integrated protection circuit board (PCB) to ensure safe operation by preventing overcharging, over-discharging, and short circuits.

Technical Specifications

Nominal Voltage	7.4 V
Capacity	900 mAh
Model Number	LIP503450

Safety & Features

Safety Instructions

- Use authorized charger only
- Do not disassemble
- Do not short-circuit
- Keep away from open flames
- Dispose of properly

Certifications

CE

Integrated Protection	Overcharge Protection, Over-discharge Protection, Short Circuit Protection
