Product Overview

Professional Power Tool Replacement Battery

This high-capacity lithium-ion replacement battery is designed for professional cordless power tools. Each unit undergoes rigorous aging tests, including two charge and one discharge cycles, to ensure peak reliability. Cells are individually tested using advanced dividing machines to guarantee consistent performance and long-term stability under demanding conditions.

Technical Specifications

| | |
|-----------------|-------------|
| Nominal Voltage | 14.4 V |
| Chemistry | Lithium-Ion |

Quality & Testing

Testing Standards

- Full inspection with original tools
- Two charge/discharge aging tests
- Cell-level sorting and division
- Overcharge protection
- Over-discharge protection

Logistics & Payment

| | |
|-------------------|-----------------------------------------------------------------|
| Packaging Details | 10 units per carton; bubble bag + individual small box per unit |
| Payment Options | T/T, L/C, PayPal, Western Union, WeChat Pay, Alipay |
| Shipping Methods | Express, Sea, Air, Land, Rail |
