

Lithium-Ion Rechargeable Battery

High-capacity lithium-ion rechargeable battery designed for various electronic devices. It provides reliable power for extended usage.

Overview

High-Capacity Lithium-Ion Power

This high-capacity lithium-ion rechargeable battery is engineered to provide reliable power for a wide range of electronic devices. Designed for extended usage, it ensures consistent performance for your equipment. Safety is prioritized with built-in protection against overcharge and short-circuit conditions, while the compact and lightweight form factor allows for effortless portability.

Technical Specifications

Model Identifier	BL-5C
Chemistry	Lithium-Ion

Features

Design Benefits

- Compact form factor
- Lightweight construction
- Easy portability
- Ideal for replacement or spare use

Safety Protections	Overcharge Protection, Short-Circuit Protection
