

Lithium-Ion Rechargeable Battery 3.6V 780mAh

This is a rechargeable lithium-ion battery for electronic devices. It has a 3.6V voltage and 780mAh capacity.

Product Overview

High-Performance Lithium-Ion Power

This rechargeable lithium-ion battery is engineered for reliable performance in compact electronic devices. With a nominal voltage of 3.6V and a capacity of 780mAh, it provides consistent power for equipment requiring this specific format. Designed with safety and longevity in mind, it is an essential component for professional-grade portable electronics.

Technical Specifications

Nominal Voltage	3.6 V
Capacity	780 mAh
Chemistry	Lithium-Ion

Compatibility & Usage

Compatible Models

- NP-FC10
- NP-FC11

Safety & Handling

Safety Instructions

- Use specified charger only
- Do not disassemble
- Do not crush or puncture
- Do not short-circuit external contacts
- Do not expose to high temperatures

Handling Precautions

Use Specified Charger • Keep Away from Heat • Do Not Short Circuit
