

Loader Bucket Tooth with Pin and Adapter

This loader bucket tooth offers high wear resistance for increased production efficiency. It is hard, tough, and provides high fatigue resistance and reliability.

Product Overview

High-Performance Loader Bucket Components

These heavy-duty bucket teeth, pins, and adapters are engineered for demanding excavation and loading environments. Designed for durability and efficient material handling, these components ensure secure fitment and long-lasting performance in rugged applications. This comprehensive range includes various locking devices, retainers, and specialized wear parts to maintain optimal bucket integrity.

Compatibility and Applications

Specialized Applications

Standard Duty • Heavy Duty • Abrasive Material • Hot Slag

Supported Machinery

Wheel Loaders, Excavation Equipment, Heavy Duty Construction

Technical Details

Available Components

- Bucket Tooth Points
- Adapters
- Locking Devices
- Retainers
- Pins
- Segments
- Wear Caps
- Fasteners (Screws, Washers, Nuts)

Component Reference

Component Category	Primary Function
Tooth Points	Ground engaging wear part
Adapters	Mounting interface for teeth
Locking Devices	Secure retention of teeth
Wear Caps	Protective component for lip assembly
