

Loader Cutting Edges and End Bits

These cutting edges and end bits are made for loaders. They provide optimal performance and a long wear life in demanding earthmoving tasks.

Product Overview

High-Performance Loader Ground Engaging Tools

These cutting edges and end bits are engineered for optimal performance and extended wear life in demanding earthmoving applications. Precision-manufactured to meet or exceed rigorous quality standards, they ensure a precise fit and reliable operation for heavy-duty machinery. Designed for versatility, these components are ideal for grading, leveling, and material handling tasks across various job sites.

Compatibility & Application

Available Components

- Cutting Edges
- End Bits
- Blades
- Tooth Tips
- Tooth Adapters
- Wear Caps
- Lip Shrouds
- Heel Shrouds
- Kwiklok Liners
- Ripper Shanks

Compatible Equipment Types

Loaders, Excavators, Bulldozers, Motor Graders, Electric Shovels
