

Locking Pliers with Adjustable Jaws

These locking pliers are designed for gripping, clamping, and turning various materials. They feature adjustable jaws for accommodating different sizes and shapes.

Product Overview

Professional Locking Pliers

These locking pliers are engineered for versatile gripping, clamping, and turning tasks across various materials. Featuring a robust metal construction, they are built for long-lasting performance in demanding environments. The integrated locking mechanism ensures a secure, hands-free hold, while the adjustable jaw opening, controlled by a knurled knob, accommodates a wide range of workpiece sizes and shapes.

Technical Specifications

Applications	Automotive, Plumbing, General Repair
