

Long Reach Lopping Shears

These lopping shears are designed with long handles for extended reach. They feature a sharp cutting blade for efficient pruning of branches and stems in gardening and landscaping.

Product Overview

Professional Anvil Lopping Shears

These professional-grade anvil lopping shears are engineered for efficiency and durability in landscaping and gardening tasks. Featuring a specialized gear action mechanism, they deliver enhanced cutting power with significantly reduced user effort. The lightweight aluminum handles ensure comfortable handling during extended use, while the high-quality SK5 steel blades provide clean, precise cuts.

Technical Specifications

Cutting Capacity	35 mm
Blade Material	SK5 Steel
Blade Coating	Non-stick

Design & Ergonomics

Handle Material	Lightweight Aluminum
Action Mechanism	Gear Action

Usage & Application

Recommended Use	Dead wood, Woody stems, Landscaping, Gardening
